

Food Pantries & Diapers – *Discussing Access & Challenges*

Becky Beilfuss, Executive Director from Teen Parent Connection, brought the topic of diapers to the Hunger Network meeting.

We all know that diapers are in high demand for our clients, especially the larger size diapers.

They are expensive and quality really does matter.

If you have any thoughts/suggestions regarding how we could collectively address this need more effectively, please let me know.

Also, if you have thoughts about adding this information to partner profiles on the DuPage Community Resource and Information System (CRIS), please share.

Here is a link to the DuPage CRIS for your reference - <http://dupagecris.org/>

For those not familiar, the DuPage CRIS is an extensive database of all the community resource in DuPage County. It's a great tool!

Thank you Becky for highlighting this topic during our meeting.

We look forward to further discussion on this topic as we work to identify new strategies to provide this important resource for families.
